READY FOR CHANGE

Gordon Brown's bankrupt Government must go

Gordon Brown once claimed he'd "abolished boom and bust". Yet the UK has been one of the countries hardest hit by the credit crunch.

Unemployment in Ealing North, has rocketed by over 80% in the last year.

Despite 12 years in power, Gordon Brown had failed to prepare the UK for recession.

He built a fragile economy based on debt.

Even the Bank of England has warned that when the recession eventually ends, Britain will be left with a massive debt crisis.

Conservative Plans

Ian Gibb explained, "We want an economic recovery based on savings and ownership not Labour's debt and borrowing. We will reform public finances and its regulation so that no Labour Government is able to bankrupt us again."

Five Point Action Plan

To Help Britain Recover From Recession

- Simple loan guarantee scheme to get credit flowing and save jobs
- 2 Year Council Tax freeze
- Cut cost of Whitehall bureaucracy by 30%
- Abolish stamp duty for most first time buyers
- Link pension increases to salaries not inflation

Dear Resident

Having spoken to many of you over the past few months, I know that crime is a major concern

Ealing Council is working hard to make our streets safer, with new street lights, CCTV cameras and an extensive alleyway gating programme.

But we also need a Conservative Government that will free the police up from Labour's politically correct bureaucracy.

The Conservatives will scrap Labour's policy of releasing prisoners early from their sentences which has seen over 6500 violent criminals put on the streets, many to go on and reoffend.

A Conservative Government, working with the local Council will make Ealing a safer place to live.

Ealing's Conservative Council is working hard to regenerate our local towns but Labour's economic mismanagement means local businesses are suffering.
