are your wisest choice

X

A record of ACTION, a promise of MORE!

Councillor Dennis Steadman says if re-elected I will continue to:

- WORK** With my colleague Councillor Trevor Howard to put the residents of Fareham South **FIRST**
- WORK** In my capacity as Vice-chairman of the Public Protection Committee with Police and Community Support Officers, also with other authorities to create and maintain a safer Fareham South and a safer Borough of Fareham where both crime and the fear of crime and anti-social behaviour are reduced.
- WORK** With Hampshire County Council to see that faulty or poor street lighting is swiftly corrected, damaged footpaths, uneven pavements and road carriageways are maintained in a good state of repair.
- WORK** To respond to your letters, emails and telephone calls within 48 hours and to continue to keep you informed by the regular quarterly publication of the *In Touch* Newsletters all the year round and not just at election time.
- WORK** To further encourage and maintain the recycling of waste materials to allow Fareham Borough Council to meet set targets and reduce the litter that disgraces our streets to make Fareham a better and cleaner place to live.
- WORK** With local residents at the earliest possible stage where significant planning applications are likely in order to ensure that the quality of life for the existing residents is preserved as much as possible.
- WORK** To persuade the appropriate authorities to allocate funds to improve road signs and other street furniture to help to tidy up and make safe what could be and has been a much more attractive area.

“Having lived in the Fareham South area for 38 years, I still find the need for community facilities including a youth centre for the West End of Fareham South, improvements to play parks and a general tidying up of the area with the possible addition of trees, plus the parking restrictions for grass verges that we still await.

“This is paramount to me and I pledge to press for these improvements.”
